## Ladder Barrel features

Designed following the specifications dictated by Joseph Pilates, in full compliance with forms and dimensions defined by himself, regarding rungs and curvature of the barrel.

Adjustable by the sliding base that allows you to adapt to different dimensions of torso and legs (+/- 30 cm.).

Double density confer exceptional comfort, especially during exercises like Swan or side exercises such as Side Up Side or Mermaid.

Built by hand by craftsmen of Rome, with high-quality materials.

Chassis made in solid wood and laminated birch.

Slipcover in antiallergic vinyl.
